Education

Metropolitan University Sylhet, Bangladesh — Sylhet, Bangladesh
• **BSc in Computer Science and Engineering** — Expected Graduation: December 2027
• **CGPA:** 3.93 /4.00
• **Relevant Coursework:** Data Structure, Algorithm, Database Management System, Statistics, Object-Oriented Programming, Operating Systems, Microprocessor and Interfacing, Competitive Programming, Communication Engineering, Computer Organization and Architecture, Digital Logic, Calculus, Linear Algebra, Discrete Math, Web Programming, Artificial Intelligence, Software Engineering

HSC, Govt.MC Academy School and College, Sylhet |CGPA: 5.00/5.00 — Passing Year: 2022
SSC, Govt.MC Academy School and College, Sylhet |CGPA: 4.78/5.00 — Passing Year: 2020

Technical Skills

Programming Language: C, C++, Java, Python, JavaScript
Frontend: React, HTML, CSS
Backend: Node.js, Express.js
Database: MongoDB, MySQL
Tools & Technologies: GitHub, JWT Authentication, REST APIs, EMU8086, XAMPP
Core Skills: Problem Solving, Logical Thinking, Communication, Team Collaboration

Projects

GradMap BD - Graduate Admissions Research Platform — September 2026
• Developed a platform to explore Master's and PhD programmes across universities worldwide.
• Provides admission requirements, programme search, scholarships, and deadline tracking.

MU Transit - University Transportation Management System — October 2026
• Developed a university bus website with schedules, routes, stops, and real-time GPS tracking.
• Includes route search and administrative tools for transportation management.

SkillBridge - Student Employment Platform — November 2026
• Developed a student-focused platform connecting students with jobs, internships, and projects.
• Features personalized recommendations, student profiles, applications, and status tracking.

TerraTrend - Earth Data Analysis and Visualization Platform — November 2026
• Developed a website for exploring and analyzing environmental and Earth system data.
• Features visualizations and trend comparisons to understand environmental changes over time.

QuizVerse – Full-Stack MERN Quiz Platform — December 2025
• Built a full-stack quiz application with user login, timed quizzes, score tracking, and leaderboards.
• Implemented JWT authentication, REST APIs, responsive UI, and MongoDB Atlas integration.
• **GitHub:** github.com/Farjana-Orpy/quizverse

Smart Menu Order Management System (Web Project) — August 2025
• Developed a PHP and MySQL restaurant menu and order management system.
• Implemented CRUD operations and relational database design for efficient order tracking.
• **GitHub:** github.com/Farjana-Orpy/smart_menu_OMS

Automatic Fire Fighting Robot November 2025
- Designed and built a functional robot capable of detecting and extinguishing fire.
- Integrated hardware and software for real-time response.

SafeSheRides (Business Proposal) March 2025
- Proposed a women-only ride-sharing service to enhance safety and accessibility.
- Developed the business concept, service features, and implementation strategy.

Simple Banking System (Java) May 2025
- Built a console-based application using Java and OOP principles.
- Implemented deposit, withdrawal, and account management features.

Competitive Programming

- Practicing problem solving on Codeforces
- Solved 80+ algorithmic problems focusing on logic and efficiency
- **Profile: codeforces.com/profile/FarjanaOrpy151**

Experience

Private Tutor
- Delivered clear explanations and improved students' academic performance

Achievements

- Maintained CGPA 4.00 in recent semesters
- Strong performance in academic projects and presentations
- Awarded the Chairman's Scholarship by Metropolitan University in recognition of academic excellence.

Certifications

- MURS Certificate: "Innovation through Research: A Pathway to Higher Education And Scholarship"
- Kaggle - Advanced SQL, Certificate of Completion (November 2, 2026)

Languages

- Bangla (Native)
- English (Fluent)
- Hindi (Conversational)

Interests

- Software Development
- Problem Solving
- Research & Innovation
